61. Sandsong
62. Seabear
63. Swish
64. Windspirit
65. WyndPower'd
66. Wynsum STV

- Based on the 2006 Haulout timings we expect to start out at +30 minutes per boat, improving as the day goes on until we average 20 minutes per boat. In 2006 we lifted 51 boats in 19.5 hours.

- The targets are: boat #18 on day one, boat #42 after day two, completing all in three days. A fourth day is booked as a back-up. If we can exceed the target we will follow the sequence and complete as many lifts as possible each day.

- If your boat has been omitted from this list please inform the SYC office at 469-8590.
